Rotterdam, The Netherlands

Experience

Dynamic Zones International BV

Nov. 2020 - Feb. 2021

Full Stack Developer Internship

(3 months)

- Developed a full-stack solution using Wappler, their low-code development platform.
- Followed the principles of AGILE software development and CI/CD to promote an iterative development process.

Education

Delft University of Technology

Delft, NL

MSc. Computer Science

2021-2024

Track: Artificial Intelligence

University of Twente

Enschede, NL

BSc. Computer Science

2018-2021

Projects

Electric Vehicle Charging

Reinforcement Learning, Constraint-Based Solving, Machine Learning

- Implemented a reinforcement learning scheduler to schedule the charging of EVs on a simulated DC power grid.
- Our solution successfully learned a policy for charging EVs through stochastic weather and power grid conditions modeled as a Markov Decision Process.

Traveling Salesperson Problem

Evolutionary Algorithms, Machine Learning

- Approached the age-old TSP problem from an evolutionary algorithms point of view by implementing a graph-clustering solution to form the shortest path.

Circles in a Square

Evolutionary Algorithms, Machine Learning

- Tackled the CiaS problem by using evolutionary algorithm techniques in combination with hyperparameter optimization and problem-specific initialization to arrive at near-optimal solutions for packing.

AAPFL - Programming Language

Compiler Construction, Programming Languages

- Developed a programming language with a compiler that compiles to SPRIL instructions for the SPROCKELL processor.
- The language has types, expressions, statements and operations, and a concurrency system with forks, joins and locks for data safety.

Portfolio Website

Web Development, React

- Developed my personal portfolio website using React, TypeScript, HTML and CSS, and made beautiful using TailwindCSS.

Skills

Programming Languages: Python, Java, C#, HTML, CSS, JavaScript, TypeScript, SQL

Frameworks: React, Svelte, TensorFlow, PyTorch, Scikit-Learn, TailwindCSS

Other: Linux, Windows, XML, JSON, Git, CI-CD, Scrum & Agile

Soft Skills: English (Fluent), Dutch (Beginner), Learning, Communication, Collaboration
